

Summer Camp on

“Tools and Techniques in Microbiology & Separation of Biomolecules by Chromatography Method”

Date : 29th June to 4th July, 2019

Participants : 3rd & 5th Semester Major Students.

Under DBT Star College Scheme

Resource Person:

1. Dr. Debasish Borbora

Asst. Prof Dept of Biotechnology

Gauhati University

Phn No.- 9577472620

2. Dr. Anirudha Sarma

Asst. Prof Dept. Of Biotechnology

Pandu College, Ghy- 12

Phn No. - 9101066219

3. Dr. Kamal Lochan Barman

Asst. Prof (Con.) Dept. Of Botany

J.N. College, Boko

Phn No. - 9435300879

4. Dr. Rekha Bora

Research Associate, Advance Level Biotech Hub

J.N. College, Boko

Phn No. 8638455428

A 6th days long summer camp on “Tools and Techniques in Microbiology & Separation of Biomolecules by Chromatography Method” was organised by the Department of Botany in collaboration with Advanced Level Biotech Hub, J.N. College from 29th June to 4th July, 2019. Dr. Debasish Borbora, Asst. Prof Dept of Biotechnology, Gauhati University, Dr. Anirudha Sarma, Asst. Prof Dept. of Biotechnology, Pandu College, Dr. Kamal Lochan Barman, Asst. Prof (C), Dept. Of Botany, J.N. College and Dr. Rekha Bora, Research Associate, Advance Level Biotech Hub, J.N. College has participated as resource person in the workshop. In this summer camp, the resource person highlighted about various tools and techniques used in microbiology, including inoculation procedure, sterilization process, used of various instruments in microbiological science. The resource person also highlighted the separation techniques of biomolecules by chromatography methods. The student of 3rd and 5th semester students were participated in the summer camp.
