

LANGUAGE LABORATORY

A DETAILED REPORT

The multilingual Digital Language Laboratory was established on 27.09.2012 with software from ORELL Technosystems India ltd with a capacity of 1 teacher and 10 students. It was started following the recommendations by the NAAC peer team visit in the year 2004.

The purpose of this laboratory is to acquaint the learners with basic communication skills of English language.

2013

On 15.05.2013 a one day familiarization programme was held amongst the faculty of the college to introduce the use of the language laboratory to the teachers of the college.

From 3-12-2013 to 13-12-2013 a 10 days course on communicative English and Soft Skill development was held amongst the faculty members of the college. Many teachers took part in this programme and were benefitted by it.

2014

The language laboratory was used for students of the English department for practice of phonetics lesson and communicative skills practice.

2015

The students of B. Sc 1st Sem were given exposure to the use of the language laboratory on 04-02-2015.

2016

In 2016 a proposal was presented to the principal on 09-09-2016 detailing a 3 month course on communication and soft skill development among degree level students. The principal gave assurance to extend full cooperation and all necessary help for the conduct of the same. Further he also directed the undersigned to discuss the requirements and details for undertaking the course with the IQAC Coordinator Dr D.K. Das in a informal discussion assured that the matter would be put up in a formal meeting of the IQAC.

2017

On 04-02-2017 an Introductory Workshop on Learner Central Methodology was held in the K.K. Handique Study Centre Conference Room. The resource person was Mrs. Aparajita Bharadwaj, Academic training consultant, British Council. On 11-05-2017 an upgradation of software was done by the service provider ORELL Techno systems India ltd. Also in 2017 some repair work was carried out in the Language laboratory and defective UPS and monitors were removed. Presently the Language laboratory has a shortage in the number of student computers. There is one teacher computer and two student computers in a usable condition. There are several monitors and CPU's and UPS lying in the language lab but in a disposable condition as declared by the Professionals who came for the repair work.

2021

In 9.4.2021 a Proposal was submitted to the NEILIT, Guwahati for conducting NSQF approved Certificate course in ITeS BPO Soft Skills And Communicative English in association with NEILIT and IQAC for the benefit of students of the backward classes.

2022

New Software installed.
