

Workshop on Foldscope: It's Principle and Application

Date: 09.03.2019:

Resource person: Dr. Manash Das

Assistant Professor,
Department of Zoology, Gauhati University

The Department of Zoology organized a workshop on “Foldscope: It's Principle and Application” on 9th March, 2019. The programme was formally inaugurated by Dr. Nripen Goswami, Principal of J. N. College, Boko. In his speech Dr Nripen Goswami mentioned about the importance of this kind of workshop for the students. In the speech the Resource Person covered lots on different microscope and its uses. He discussed on Foldscope its invention, principle, magnification, resolving power, easy handling, its benefits etc. He also mentioned that the Foldscope is a kind of microscope that can be easily carried to field for research work. The student physically handled the Foldscope and learned the use of Foldscope.
