

Guest Lecture on Gravity and its impact on Climate Change

Date: 19.02.2020

Resource Person: Dr. Debasish Talukder
Scientist, ISRO

On 19th February, 2020 the Department of Zoology organized a Guest Lecture Gravity and its impact on Climate Change. Dr. Debasish Talukder Scientist, ISRO was invited as Resource person. Dr. Nripen Goswami, Principal of the college inaugurated the programme. In his speech Dr Talukder discussed about the role of gravity in both environment and climate change. He also mentioned that the environment and the climate depend on the gravity of the earth. It was an interdisciplinary lecture where faculty members from various departments along with students were participated.

Inaugural lecture by Mrs. Rumita Phukon
