

Interaction program with the students Tarabari Anchalik High School

Date: 28-10-2024

Venue: Botany Department of the college and Integrated Organic Farming, J. N. College, Boko.

A group of students from Tarabari Anchalik High School visited the Department of Botany and the college's organic farm on October 28, 2024. Accompanied by their teachers, the students came under the National Skills Qualification Framework (Samugra Sikha, Assam) for hands-on skill training in various agricultural and horticultural techniques, including cutting, grafting, vermicomposting, and the use of greenhouses in agriculture. Mr. Pinaki Kr. Rabha and Dr. Habibur Rahman, faculty members of the Department of Botany, interacted with the students and demonstrated the cutting and grafting procedures.
