

COURSE OUTCOME AND PROGRAME OUTCOME
DEPARTMENT OF ANTHROPOLOGY
J.N. COLLEGE, BOKO

Background and purpose of the course:

Anthropology is the study of humanity. The subject focuses on the study of the origin and development of human societies and cultures. Culture is the learned behaviour of people, including their languages, belief systems, social structures, institutions and material goods. Anthropologists study the characteristics of past and present human communities through a variety of techniques. They describe how different people of our world live throughout the history. Anthropologists attempts to achieve this observing people in their local environment. Anthropologists by participating in the everyday life of their subjects, they can better understand and explain the purpose of local institutions, culture and practices. This steps enable anthropologists to describe people through peoples own terms.

The Department of Anthropology under the school of life science offers the B.A/ B.SC course with an outcome based curriculum. The department of Anthropology focuses on the development of students who will contribute towards rigorous intellectual evaluation to the field of study.

Programme Outcome

1. The students of Anthropology will learn the history, branches and scope of anthropology.
2. They will comprehensively understand the concepts and theories of major branches of anthropology, i.e. Biological, Social, Archaeological and Linguistic Anthropology.
3. Gain knowledge on skills on types of profession related to the area of Anthropology in research and development, teaching and government and public services.
4. They will able to relate all the core papers, AEC, SEC papers with social, economic, religious and political environment of communities.
5. Students will be familiar with approaches techniques, methodologies used in anthropological research.
6. They will understand the distinction of conducting population based fieldwork independently and collecting qualitative and quantitative data pertaining to research work.
7. The students will able to detect the major health or social problems of society or populations and they should themselves give research based feasible solutions related to any problems.

8. The knowledge of anthropology will help them in collection and analyze data by their own and ultimately helpful for them to move on towards various research work including Ph.D programme.

9. They will learn how to review and write research papers in Anthropology.

10. Students should finally understand the importance of anthropological research in policy making and improving human life.

COURSE OUTCOME:

Semester	Paper Code	Paper Name	Course Outcome
Semester-I	ANT-HC-1016	Introduction to Biological Anthropology	1. Students will learn about the genesis and development of biological Anthropology 2. Learn about the aspects from which evolution and variation is studied.
	ANT-HC-1026	Introduction to Social-Cultural Anthropology	1. The basic theoretical knowledge about Social and Cultural Anthropology can be achieved. 2. The knowledge of first-hand field data collection and analysis can be gained.
Semester-II	ANT-HC-2016	Archaeological Anthropology	1. Students will be acquainted with archaeological background of prehistoric, protohistoric and historical evolution of human culture. 2. Students will have practical understanding of prehistoric culture through tool technology and pottery technology.
	ANT-HC-2026	Fundamental of Human Origin & Evolution	1. Students will learn about the stages of human evolutionary development. 2. Will know about the fossils finds on the basis of which the evolutionary stages are identified.
Semester-III	ANT-HC-3016	Tribes and Peasants in India	1. The anthropological knowledge and approach to study of tribes, villages and peasantry can be gained. 2. The problems, prospects, development, and government policies for tribes, villages and peasants can be achieved.
	ANT-HC-3026	Human Ecology: Biological &	1. The knowledge on human adaptation in ecology will be gained.

		Cultural dimensions	2. The knowledge on urbanization and industrialization in human societies will be achieved.
	ANT-HC-3036	Biological Diversity in Human Populations	1. The students will learn about markers for understanding biological diversity. 2. Classical markers use for classifying races. 3. Classification of Indian population.
	ANT-SE-3014	Tourism Anthropology	1. Students will learn about the Socio-Cultural background of developing tourism. 2. The students will learn the basics of eco-tourism and heritage tourism in the current situation.
Semester-IV	ANT-HC-4026	Theories of Culture and Society	1. The knowledge of the basic theories of culture in Anthropology can be gained. 2. The knowledge of the basic theories of society in Anthropology can be gained.
	ANT-HC-4026	Human Growth and Development	1. Students will learn about concepts related with growth and stages of growth. 2. Students will learn biocultural factors that influence growth and development. 3. Students will learn human body composition.
	ANT-HC-4036	Research Methods	1. The knowledge on formulation of research design, application of methods and techniques in data collection will be obtained. 2. The ethics of research will be understood for an effective research study.
	ANT-SE-4014	Public Health and Epidemiology	1. The students will learn different aspects of health, diseases and principles of epidemiology
Semester-V	ANT-HC-5016	Human Population Genetics	1. Students will learn about mechanisms which create variation in gene frequencies. 2. Students will learn the method of assessing gene frequency variation. 3. Students will learn how ecological factors which help maintain gene frequencies.
	ANT-HC-5026	Anthropology in Practice	1. The knowledge of Applied Anthropology, Action Anthropology in Development. 2. Students will gain knowledge of recent trend of Anthropology.

	ANT-HE-5016	Indian Archaeology	1. The students will be familiar with the rich prehistoric past of the country. 2. The students will understand the prehistoric foundation on which the later course of history in the country developed.
	ANT-HE-5026	Anthropology of Religion, Politics and Economy	1. The knowledge on the anthropological theories of religion, economies and political institution will be gained. 2. The knowledge on the interrelationship between religion, economies and political institution will be achieved.
Semester- VI	ANT-HC-6016	Forensic Anthropology	1. Students will learn about distinguishing human from non-human skeletal remains. 2. Students will learn about the techniques of making personal identification.
	ANT-HC-6026	Anthropology in India	1. The students will learn about racial linguistic and ethnic dimension of Indian society. 2. The students will be familiar with the anthropological situation of the country.
	ANT-HE-6016	Dissertation	1. The knowledge of conducting fieldwork by applying anthropological methods will be gained. 2. The knowledge of data analysis and writing based on the collected data will be learned.
	ANT-HE-5036	Demographic Anthropology	1. Students will learn about the basics of demography and demographic theories. 2. Students will learn about the tools used for population changes.
Semester-I	ANT-RC-1016	Introduction to Biological Anthropology	1. Students will learn about the genesis and development of biological Anthropology 2. Learn about the aspects from which evolution and variation is studied.
	ANT-HG-1016		
Semester- II	ANT-RC-2016	Introduction to Social-Cultural Anthropology	1. The basic theoretical knowledge about Social and Cultural Anthropology can be achieved. 2. The knowledge of first-hand field data collection and analysis can be gained.
	ANT-HG-2016		
Semester- III	ANT-RC-3016 ANT-HG-3016	Archaeological Anthropology	1. Students will be acquainted with archaeological background of prehistoric, proto-historic and historical evolution of human culture.

			2. Students will have practical understanding of prehistoric culture through tool technology and pottery technology.
Semester-IV	ANT-RC-4016		1. The knowledge of Applied Anthropology, Action Anthropology in Development. 2. Students will gain knowledge of recent trend of Anthropology.
	ANT-HG-4016		
Semester - V	ANT-SE-5014	Media Anthropology	1. Students will learn the theoretical basis Media Anthropology 2. Students will learn about the different aspects of audio-visual media.
	ANT-RE-5016	Anthropology of Religion, Politics and Economy	1. The knowledge on the anthropological theories of religion, economies and political institution will be gained. 2. The knowledge on the interrelationship between religion, economies and political institution will be achieved.
Semester-VI	ANT-RE-6016	Dissertation	1. The knowledge of conducting fieldwork by applying anthropological methods will be gained. 2. The knowledge of data analysis and writing based on the collected data will be learned.
	ANT-SE-6014	Museum Method	1. The students will acquire firsthand knowledge of preservation, conservation (including preventives and curative measure) of objects of Anthropological museum.
